# OPERATIONS & MAINTENANCE OVERVIEW

For a multifamily property like yours, a little maintenance can go a long way toward improving your bottom line. Complete one of the energy-saving projects below to earn a \$150 incentive—plus \$100 more for each additional completed project. Altogether, you could **earn up to \$750**.

Chiller setpoint adjustment.

Economizer optimization.

## **Eligible Projects:**

- Supply air temperature reset.
- Hot water temperature reset.
- Schedule optimization.

## How to Participate:

- Contact an Energy Advisor to discuss your needs and/or schedule a walk-through assessment. Find one near you at focusonenergy.com/energy-advisor-map or call 800.762.7077.
- Take pictures of your existing equipment to document the "before" settings. Once the measure is completed, take pictures of your equipment to document the "after" settings.

### **Example: Hot Water Temperature Reset**

As the outside air temperature warms, the temperature to which the water is heated reduces linearly. I.e., if it is 0 °F outside then the hot water will be 180 °F, and if it is 60 °F outside then the hot water will be 140 °F. Take a picture of the temperature before the reset and after the reset for documentation.

Visit **focusonenergy.com/multifamily-operations-maintenance-guide** for more detailed instructions.

- Submit required documentation through our online application. Visit focusonenergy.com/multifamily or ask your Energy Advisor for details.
- 4. Receive your incentive payment within four to six weeks.

## **Eligibility:**

Available to all multifamily customers of a participating utility.

## **Get Started**
