

GET EXPERT ADVICE TO LOWER YOUR BUSINESS ENERGY COSTS

FOCUS ON ENERGY® is partnering with local Chambers of Commerce to help businesses learn about available energy-saving services, financial incentives, and resources. Businesses can get help from an Energy Advisor to identify practical, cost-effective ways to save energy, and apply for rebates and incentives. Whether it's purchasing new energy-efficient equipment, making quick operational improvements or tune ups, or creating a long-term energy plan, Focus on Energy has support for every type and size business.

What Can an Energy Advisor Do For Your Business?

- Pinpoint where your business may be wasting energy, based on how and when you operate.
- Identify energy-efficient upgrades that make financial sense, with estimated savings and payback timelines.
- Recommend potential rebates and incentives, reducing upfront costs.
- Eliminate guesswork by helping you find qualified contractors.
- Save time and effort by helping you complete rebate and incentive applications.
- Put a plan in place, so you know what energy-saving projects to pursue and when.

Every energy efficiency upgrade has different costs, savings, rebates, and payback timelines. Your Energy Advisor can give you the full financial and operational picture before you commit to a project. We'll also help you avoid unnecessary expenditures with unbiased, objective guidance, because we have no products to sell, no quotas to meet.

REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources, and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
