

FOCUS ON ENERGY® 2026 TRAINING SCHEDULE

January			
Jan 13	HVAC Basics	**	One-hour webinar 9:00-10:00 AM
Jan 21-22	Energy Management and Technology: Fundamentals and Beyond		Two-part webinar 8:30-11:30 AM
Jan 27	Introduction to Retro commissioning		One-hour webinar 9:00-10:00 AM
February			
Feb 10	Commercial Refrigeration, Equipment, and Refrigerants – A Practical Approach to Future Change		Two-hour webinar 9:00-11:00 AM
Feb 18	Online Selling Efficiency sessions: <ul style="list-style-type: none"> Residential - Part one (90 mins – Time TBD) Commercial – Part one (90 mins – Time TBD) 		Webinars (Times TBD)
Feb 24	Developing an Energy Plan	**	One-hour webinar 9:00-10:00 AM
March			
Mar 5-6	Power Quality Considerations for Energy Efficiency and Renewable Energy Systems		Two-part webinar 9:00-11:00 AM
Mar 10	Compressed Air	**	One-hour webinar 9:00-10:00 AM
April			
Apr 7	Lighting Controls and Efficiency Opportunities		Two-hour webinar 9:00-11:00 AM
Apr 21 Apr 22	Selling Energy with Mark Jewell (Residential/Commercial sessions) <ul style="list-style-type: none"> Day one: is a half day in-person session for Residential Day two: is a half day in-person session for Commercial 		Location and Times TBD
Apr 28	Smart Data: How to Better Manage Your Facility	**	One-hour webinar 9:00-10:00 AM
May			
May 5	Hidden in Plain Sight: Building Envelope Performance	**	One-hour webinar 9:00-10:00 AM
May 19	Cooling Tower Operation and Maintenance	**	One-hour webinar 9:00-10:00 AM
June			
June 2	Hidden Energy Costs	**	One-hour webinar 9:00-10:00 AM
June 16	Compressed Air Fundamentals		In-person session (Time TBD)
June 17-18	Advanced Compressed Air Challenge (two-day course)		In-person session (Time TBD)
July			
<p>**Notes a recording of this webinar will be available the day after the training date. The link, which will be available for approximately one year, can be found here: Webinar Recordings</p> <p>Additional sessions can be found on our Learning Management System here: 24/7 On-Demand Training</p>			

August			
Aug 5-6:	HVAC Applications for Commercial, Small Industrial, Schools & Gov't		Two-part webinar 9:00-11:00 AM
Aug 18:	Energy Efficiency Opportunities for Grocery and Convenience Stores		Two-hour webinar 9:00-11:00 AM
Aug. 25	Converting Energy Audits into a Business Plan	**	One-hour webinar 9:00-10:00 AM
September			
Sept 8:	Gas vs Electric: And the Winner is ...	**	One-hour webinar 9:00-10:00 AM
Sept 15-16:	Industrial Ventilation and Process Heat Recovery		Three-hour webinar 8:30-11:30 AM
Sept 24:	Power Quality Considerations for Energy Efficiency and Renewable Energy Systems		Four-hour webinar 8:30 AM – 12:30 PM
Sept 29:	Commissioning Best Practices	**	One-hour webinar 9:00-10:00 AM
October			
Oct 6:	The Four-Season Solution: Heat Pumps	**	One-hour webinar 9:00-10:00 AM
Oct 21-22:	Operations and Maintenance Practices for Energy Efficiency		Two-part webinar 9:00-11:00 AM
Oct 27:	The Alternative to Outside Air: Air Scrubbing	**	One-hour webinar 9:00-10:00 AM
November			
Nov 3:	Money Talks: Energy Efficiency Investment Analysis	**	One-hour webinar 9:00-10:00 AM
Nov 17:	Using AI in Predictive Maintenance	**	One-hour webinar 9:00-10:00 AM
December
