

# WELCOME TO YOUR NEW HOME

## Rebates and Resources for Home Energy Improvements

Good news—your real estate agent is also a FOCUS ON ENERGY® Ambassador. That means they can connect you with great resources and exclusive offers to improve the comfort, health, and energy efficiency of your home.

Focus on Energy partners with natural gas and electric utilities across Wisconsin to offer rebates that help lower the cost of energy-saving home improvements. Each step you take to save energy and boost comfort helps both your home and your community.

## For Your Home

Since 2001, Focus on Energy has helped millions of homeowners make simple changes that make a big difference. For example, you can receive:

- Free energy-efficient product packs.
- Cash rebates for DIY or professionally installed insulation and more.
- Special offers on smart thermostats and other easy energy savers.
- Instant discounts on heating and cooling equipment (ask your local HVAC Trade Ally/Contractor).
- Renewable energy rebates.

## A Warm Welcome: Get \$125 Off a Furnace Tune-Up or Program-Qualified Smart Thermostat

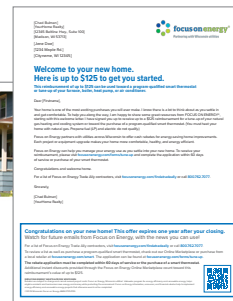

Taking advantage of Focus on Energy offers is already easy, and since your real estate agent is an Ambassador, it is even easier and more rewarding. Be on the lookout for a special Welcome Gift from Focus on Energy and your real estate agent. It will land in your mailbox about six weeks after you close on your new home and have a chance to settle in.

Your Welcome Gift includes a \$125 reimbursement that can be used toward an HVAC tune-up or the purchase of a program-qualified smart thermostat. It is a great way to start feeling right at home in your new house. Watch for an email from Focus on Energy in the coming weeks with additional resources, including a link to our Home Maintenance and Energy Guide.

### Your \$125 Reimbursement is Here to Welcome You Home.

Use it for a cleaning and tune-up of your heating and cooling system, or toward the purchase of a program-qualified smart thermostat. Compliments of your real estate professional and FOCUS ON ENERGY!

## We Are Here for You

### REDUCING ENERGY WASTE ACROSS WISCONSIN

Rebates are subject to change and cannot exceed project costs. Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources, and financial rebates help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
