

FOCUS ON SMART THERMOSTATS

Smart Savings for Increased Comfort

Smart thermostats make it easy to save on energy by learning about your household's energy patterns and automatically adjusting your home's temperature settings throughout the day. They also help boost the performance and efficiency of your heating and cooling system. What's more, many smart thermostats include convenient features like remote access that allow you to control your home's temperature right from your phone, tablet, or computer.

If you're ready to make the switch, FOCUS ON ENERGY® offers several ways that you can receive instant discounts and rebates to help cover the cost of your new smart thermostat.

Shop the Online Marketplace

Shop the Focus on Energy Online Marketplace to get instant discounts on a variety of energy-saving smart thermostats from ENERGY STAR® certified brands. Plus, if you're unsure which smart thermostat is best for your home, you can contact our support team for help by calling **800.762.7077**.

Purchase From Your Favorite Retailer

You can purchase a qualified smart thermostat from any retailer and receive a \$50 rebate by filling out a short online application.

Save on a Contractor-Installed Thermostat

If you prefer to have your Trade Ally contractor install a new smart thermostat, they can help ensure the thermostat qualifies for an instant discount.

Rebates are subject to change and cannot exceed project costs.

Ready to Save on Smart Thermostats?

To shop our Online Marketplace, explore qualified smart thermostats, or submit a rebate application, visit **focusonenergy.com/smart** or **scan the QR code**.

Even More Savings!

Focus on Energy rebates are not the only way to save on home energy projects. Your household may be eligible for other programs, including instant discounts, Weatherization Assistance Programs, and utility rebates. Plus, if qualified, you can combine rebates for even more savings. Check out **focusonenergy.com/get-started** to learn more.
