

2026 TRIBAL OFFERINGS

FOCUS ON ENERGY® has offerings to aid the planning and development of upcoming projects for your tribal community. If you need help identifying a project, making an energy plan, getting your community involved, or securing funding, Focus on Energy can help. For a complete list of resources, visit focusonenergy.com/tribes.

Business Offerings

Apply for Financial Rebates

Rebates and Custom Incentives - Reduce your energy efficiency project's overall cost by applying for financial funding. Work with your Energy Advisor to determine if your project needs pre-approval.

Solar PV Rebates - Looking to go solar? Businesses are eligible for up to \$25,000 in rebates. Funding for other renewable projects is also available. Contact your **Energy Advisor** for more information.

Operations and Maintenance - Enjoy the benefits of an efficient building by keeping your equipment tuned-up or completing a comprehensive review of your building's operations.

Identify a Project

Project Assessment Incentive - Need help determining the viability of a potential energy project for complex or process-related equipment? Focus on Energy covers 50% of the external cost, up to \$15,000, for studying and developing an energy savings project.

Invest in Energy Progress

Tribal Strategic Energy Fund - Receive funding for identifying energy-saving priorities and setting up an energy plan. Participating Tribal Nations will receive a \$25,000 investment to support their chosen efforts, with guidance from their Energy Advisors to reach long-term goals.

Get started with your Energy Advisor to achieve your energy-saving goals!

Residential Offerings

In 2026, Focus on Energy is providing rebates to make your residential and multifamily properties more energy efficient. These offerings are unique and exclusively offered to tribal nations above the standard rebates provided to qualified building owners in Wisconsin.

Check out the list below for approved equipment upgrades and funding opportunities:

Single Family

Insulation & Air Sealing

- Natural gas or electric heat only.
- Limited to 80% of the project costs, up to \$4,000.

HVAC (LP, Oil, Wood, and Electric Heat)

- Ducted or ductless cold climate heat pump, 80% of project cost, up to \$3,000.

HVAC (Natural Gas)

- Furnace/boiler, 80% of cost, up to \$3,000.

Multifamily

Insulation & Air Sealing

- Natural gas or electric heat only.
- \$1/ft² of attic space, \$0.80/ft² of wall space.

HVAC (LP, Oil, Wood, and Electric Heat)

- Ducted or ductless cold climate heat pump, \$800 per unit/condo.

HVAC (Natural Gas and Electric Heat)

- Furnace/boiler, 80% of cost, up to \$3,000.
- Ducted or ductless cold climate heat pump, \$1,000 per unit/condo.

Building Performance Institute Training

- Building Science Principals and Building Analyst Technician training available to any staff member.
- Building Analyst Professional limited to one staff member per community.

Rebate amounts are capped, and all projects must be pre-approved by Focus on Energy and a designated representative from the Tribal Community. Projects must be completed and applications submitted within 60 days.

REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources, and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
