OFFICE OF

Sustainability & Clean Energy

Catalyzing equitable climate solutions

Executive Order #38

- Created OSCE in 2019 to lead on planning, programs, and policy development that address climate change and achieve the goal of 100% carbon free electricity by 2050
- OSCE serves as a central hub in the State to elevate and align work of state agencies, Tribal Nations, utilities, local governments, non-profits, labor/workforce groups, and other stakeholders

IRA: Climate Pollution Reduction Grant

Phase 1: Plan

This program is designed to provide flexible support to states, local governments, tribes, and territories regardless of where they are in their climate planning and implementation process.

Phase 2: Implement

EPA has announced two competitions for $4.6 billion for CPRG implementation grants – a general competition and a competition only for tribes and territories.

Key Dates for WI CPRG

Summer 2023: OSCE received CPRG planning funding

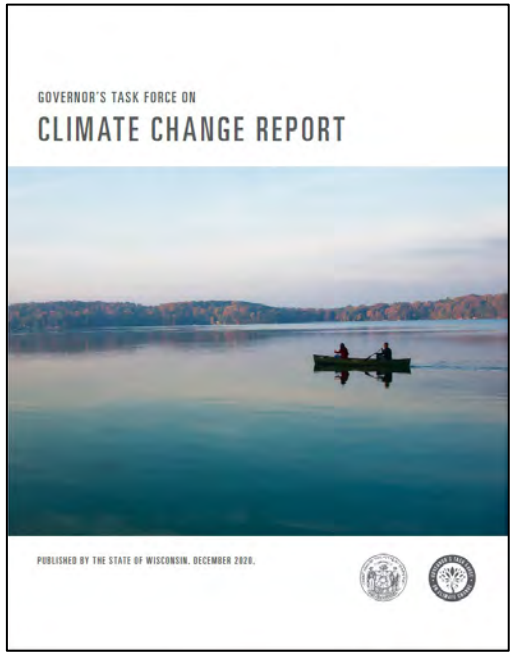

March 1, 2024: Priority Climate Action Plan Submitted

April 1, 2024: Implementation Application submitted

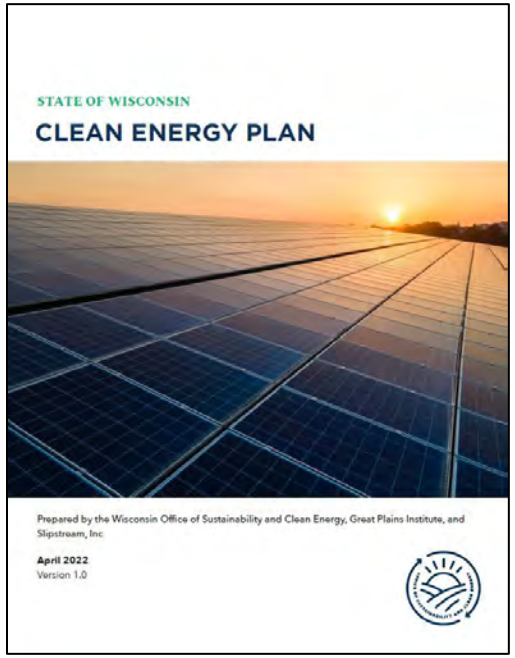

May 31, 2025: Comprehensive Climate Action Plan due

May 31, 2026: Status Report due

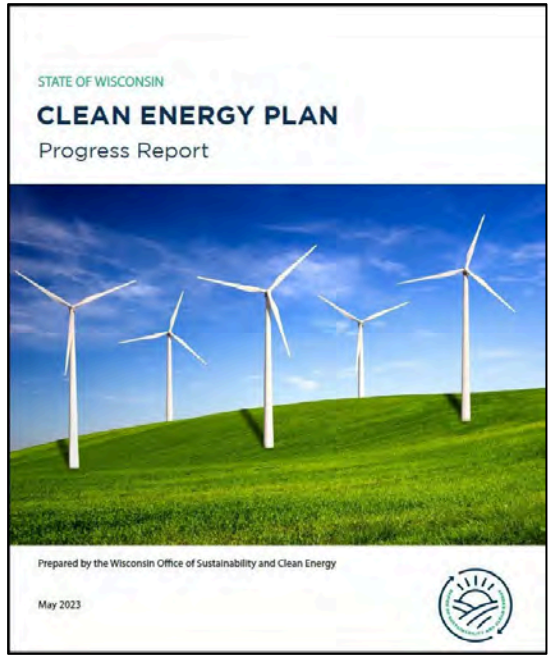

Climate Action Planning

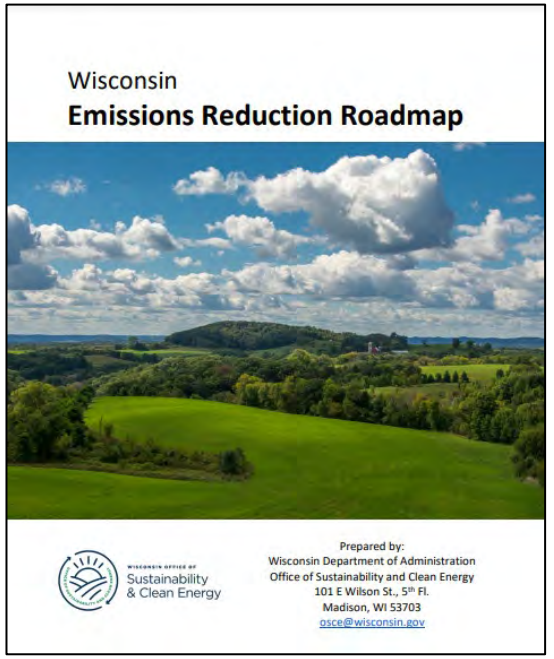

December 2020

April 2022

May 2023

March 2024

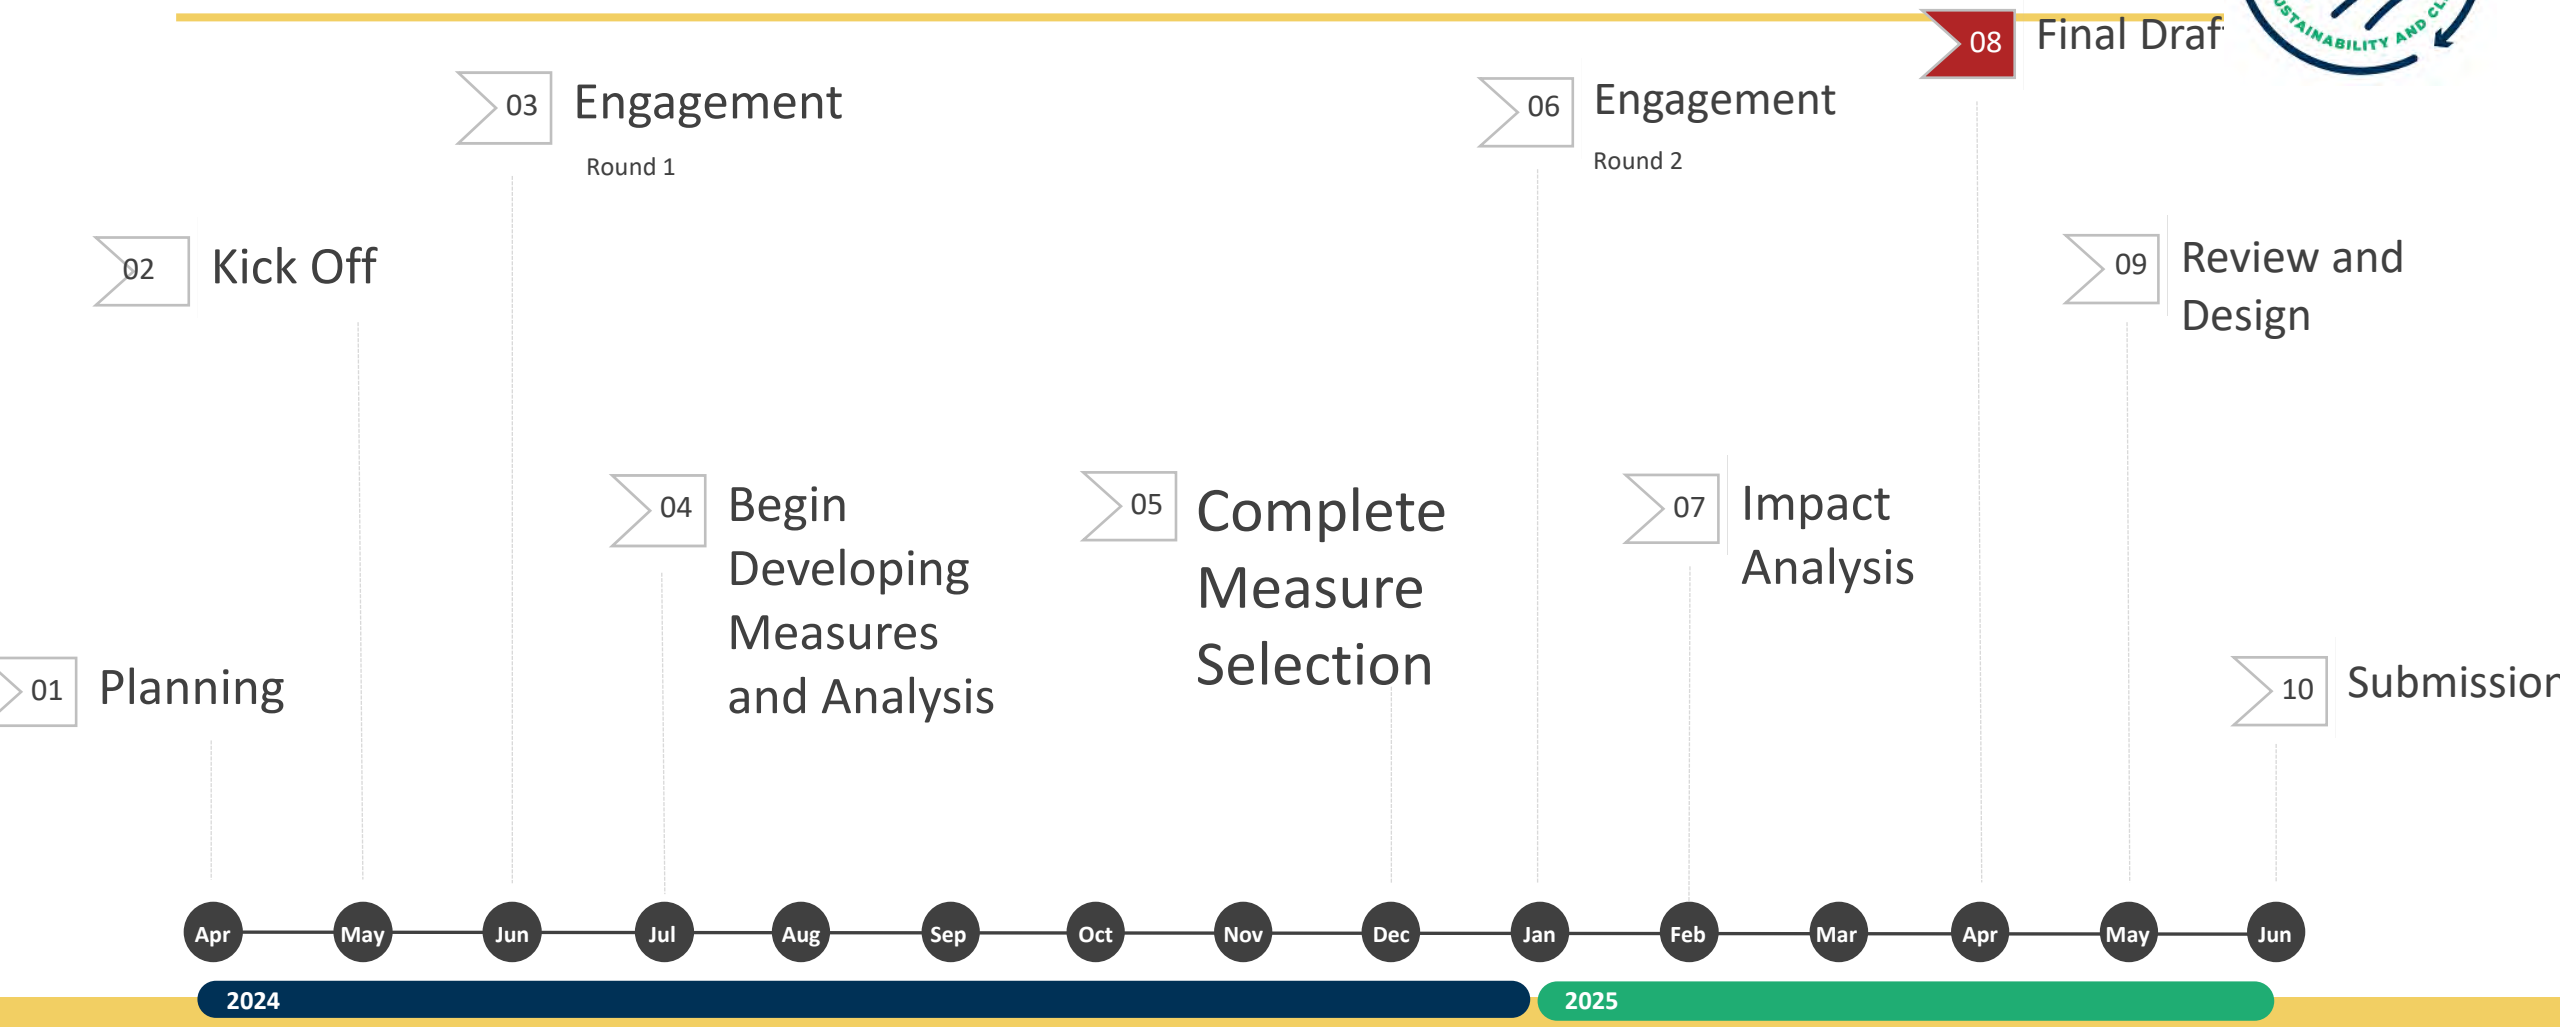

Summer 2024: CEP Progress Report
May 2025: Comprehensive Climate Action Plan

WI CPRG Implementation Application - **Notice of funding opportunity in July**

Program	Description
Lead-by-Example: Public Energy and Transportation Program	This program would be designed to provide funding for Local Governments, Universities, State Agencies, Schools, or Hospitals to implement energy efficiency, renewable energy deployment (excluding solar + storage for coalition), or transportation electrification actions.
Incentives for Building Energy Efficiency and Electrification (Private)	This program would be designed to provide incentive-based funding for private entities (citizens or businesses) to electrify their buildings and do energy efficiency upgrades and retrofits. Focusing on gaps present from PSC and DOA existing/planned programs.
Incentives for Transportation Electrification and Clean Fuels (Private)	This program would be designed to provide incentive-based funding for private entities (citizens or businesses) to purchase zero or low-emission vehicles or install private charging units.
Small Engine Replacement (Private)	This program would be designed to provide incentive-based funding for private entities (citizens or businesses) to purchase zero or low-emission small-engine equipment and vehicles.
Tribal Climate Action Program	This would create a program specifically targeted to tribal communities to support their climate action efforts. Formula funding for tribal climate action planning and studies, and project implementation. (20% of total)
Climate and Clean Energy Workforce Development	This program would be designed to provide support for workforce development related to the deployment of energy efficiency, electrification, and renewable energy implementation throughout the state.
Outreach and Engagement through the WI Climate Action Navigators	This would support outreach and engagement related to climate pollution reduction efforts occurring around the state at all levels by using the Wisconsin Climate Action Navigators (WI CAN) initiative started to support the Climate Pollution Reduction Planning process.

Comprehensive Climate Action Plan (CCAP)

Timeline

Tribal engagement in CCAP

- Engagement through the WI Climate Action Navigators
  - Regional meetings
  - Project incubator
- Host your own CCAP community engagement session! **Up to $5,000 for event costs**
- Join a sector advisory team
- Existing community events??
- Other ideas??
