

CLEAR THE SHELVES WITH FOCUS ON ENERGY®

Get rewarded for previous generation LED products! For a limited time, Focus on Energy is rolling back requirements for LED lamps and fixtures requiring DesignLights Consortium® (DLC) listing status. Products meeting last year's requirements, Solid-State Lighting (SSL) Technical Requirements Table (TRT) V5.0, are now eligible for incentives, in addition to current products listed under SSL TRT V5.1.

V5.0 Eligible Equipment Includes

Interior Lighting	Catalog Page

Exterior LED Retrofit of 8 Foot Fixtures	22
Exterior LED Mogul Screw-Base (E39) Lamp	23
Exterior LED Linear Replacement Lamps	24

Eligibility

- 1 The special offering is limited to [2023 Lighting Catalog](#) incentives with a DLC listing requirement.
- 2 Equipment must be installed on or after January 1, 2023, and **DLC SSL QPL Listed TRT V5.0** at the time of install. All other incentive requirements apply.
- 3 To apply, use the current incentive code found in the 2023 Lighting Incentive Catalog. Include documentation of DLC listing status along with your application.

REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources, and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
