

FOCUS ON CLEAN WATER

Funding for Water and Wastewater Infrastructure Projects

Wastewater facilities are among the largest energy consumers within a community due to the pumps, motors, and other necessary equipment operating at all hours of the day. The Wisconsin Department of Natural Resources (DNR) **Clean Water Fund Program (CWFP)** has partnered with FOCUS ON ENERGY® to fund energy-efficient processes and upgrades at municipal wastewater treatment plants. Projects receiving subsidized loans may be awarded Energy Efficiency Priority Principal Forgiveness (PF) if the municipality is receiving Focus on Energy incentive funds. For complete details about the CWFP Energy Efficiency offering, go to dnr.wi.gov and search "Priority PF."

Program Offering Details

Receive a **100% match** of financial incentives, up to **\$50,000 per project**.

Combine with subsidized funding to **increase** the total financial aid amount.

Subject to availability and is allocated on a **first-come, first-served basis**.

How to Apply

VISIT THE CWFP WEBSITE
dnr.wisconsin.gov/Aid/EIF.html
to learn how to apply for a subsidized loan and Principal Forgiveness.

CONTACT FOCUS ON ENERGY at **800.762.7077**
to determine which financial incentives work best with your project scope and budget.

APPLY BY SEPT. 30, 2023
if requesting PF funding.
*Applications are accepted year-round for projects not seeking PF.

**CWFP Applications submitted after September 30 can still receive a loan and be considered for Energy Efficiency Priority PF if funding is available.*

REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources, and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
