

# PRIORITIZE YOUR SAVINGS WITH A COMPREHENSIVE ENERGY AUDIT

Developing your organization's energy-saving priorities can have powerful long-term benefits. However, securing the expertise needed to identify these priorities at no additional cost can be particularly challenging in rural areas. Collaborate with your Energy Advisor from FOCUS ON ENERGY® to pinpoint your **TOP THREE** prioritized energy conservation measures for a simple, actionable list to check off in the next two years. Complete the projects and receive escalating bonuses for each project. Eligible in rural zip codes only.

## How to Participate

1

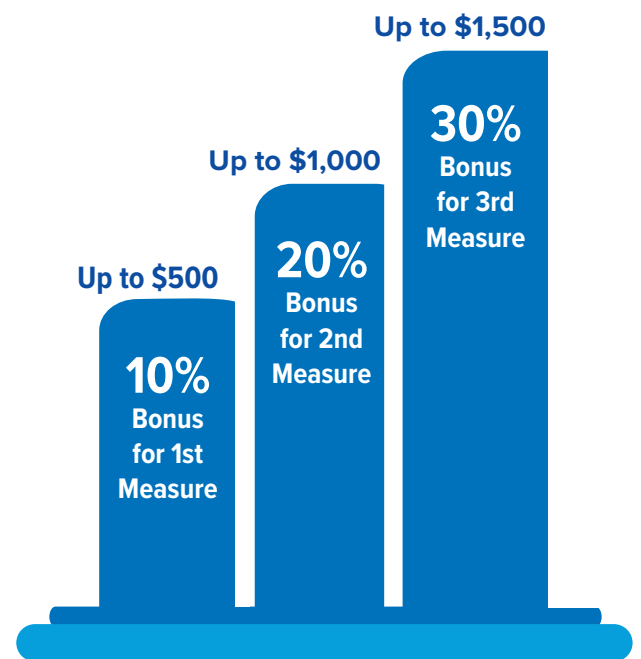

Schedule an audit with your [Energy Advisor](#) to identify your **TOP THREE** energy efficiency projects.

2

Complete the projects in prioritized order (custom projects require pre-approval).

3

Submit a Business Incentive Application within 60 days of installation and include the appropriate bonus code(s) (provided by your Energy Advisor).

## Eligibility Requirements

- Available to school and government customers in [rural zip codes](#) only.
- Eligible for custom and prescriptive projects.
- Assessments, tune-ups, retrocommissioning, and new construction projects are ineligible.
- Projects are eligible for a bonus if the audit is completed prior to purchase of equipment.
- Energy Advisor has final determination of prioritization of identified energy conservation measures.
- Cannot be combined with Project Planning Bonus.
- Projects must be completed and all completion paperwork received by **October 31, 2026** to be eligible for a bonus.

### REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources, and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
