

2023 LIGHTING INCENTIVE SUPPLEMENTAL DATA SHEET (SDS)

THIS FORM MUST BE ATTACHED TO COMPLETED INCENTIVE APPLICATION AND SUBMITTED TOGETHER.
FOR PROJECTS INSTALLED BY 12/31/2023. **NEED HELP? CALL 800.762.7077**

HOW TO FILL OUT THIS FORM

Refer to the **lighting sections of this catalog** for measure requirements and information.

- Complete the table corresponding to the measure in this catalog.
- Visit focusonenergy.com/catalogs for an electronic version of SDS.
- If the new equipment is DesignLights Consortium® (DLC) Solid State Lighting (SSL) Qualified Product List (QPL) listed (TRT V5.1 or higher), use the DLC "Tested Electrical Performance" data for wattage of new equipment. If the DLC tested data is not available and only "Reported Electrical Performance" data is available, use the wattage listed on the specification sheet of the new equipment if the data is more current than the DLC listed family data.
- If the new equipment is listed under ENERGY STAR®, use the wattage on the ENERGY STAR certification instead of the specification sheet.
- **Round both existing Equipment and new Equipment Wattage to the nearest whole number.** For example: round 10.4W to 10W, round 15.5W to 16W.
- For watts reduced measures (Table N), see system wattage table on page 58 for 'rounded wattage of existing equipment' inputs.

Attach this form to a completed **Incentive Application** and submit together.
