

Be Rewarded for Building Solar Ready.

Receive up to \$400 to offset the costs of making your new home solar ready.

A solar ready home is built with features to maximize future solar equipment production and streamline installation.

How to Qualify

- ✓ Identify the following on the construction documents:
 - Location of the solar panels
 - Conduit pathway from the roof to the electrical panel area
 - Roof load calculations
- ✓ Reserved breaker in the main electrical panel labeled “For Future Solar Electric”

Benefits

- Homeowners are willing to pay a premium for a solar ready home
- Gain a competitive advantage in the marketplace with energy conscious consumers
- Provide home buyers the potential for long-term savings on monthly utility bills
