Partnering with Wisconsin utilities

Incentives for Qualifying Equipment

FOCUS ON ENERGY® partners with distributors and contractors to provide instant discounts to utility customers who purchase qualifying energy-efficient commercial kitchen equipment. To be eligible for an instant discount, your customer's project must be located in Wisconsin and serviced by participating Focus on Energy utilities.

Commercial kitchens are notorious for high energy use—as much as three times more per square foot than other commercial buildings like offices or retail stores. Outfitting a commercial kitchen with ENERGY STAR® certified products could help save more than \$5,300 a year on energy costs.*

REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources, and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed. ©2023 Wisconsin Focus on Energy
